EXPERIENCE

Product Developer

[Fusion Digital Growth, LLC](#)

📅 12/2024 - Present 📍 New York, NY

Digital Marketing Agency

- Migrated website hosting and domains for client base on AWS, Cloudflare and Backblaze.

Product Development Engineer

[Mella Pet Care](#)

📅 02/2023 - Present 📍 New York, NY

SaaS/IoT Pet Wellness Ecosystem

- Built React-Native application, optimizing pet nutrition automation for users.
- Heading QA for cross-platform software and user experience consistency.
- Managed AWS and cost optimizer for resources and application capacity.
- Led technical partnership discussions at VMX Veterinary Conference.

Content Manager

[Polish Pages](#)

📅 2016 - 2023 📍 New York, NY

Polish-American Business Directory

- Web maintenance for existing clients.
- Ensured consistency of client data across print and online format.
- Published 4-8 daily news articles targeting the Polish-American community by collaborating with 2 writers.

SUMMARY

Software engineering professional with 2+ years of proficiency in product development and quality assurance, experienced in full-stack development. Key achievements include developing a cross-platform pet nutrition automation application in React Native and managing feature set consistency across mobile and desktop implementations.

SKILLS

C++, JavaScript, Python, React/Native, Postgres, SQL, Velo

AWS, Google Play Console, Microsoft Partner Center, Twilio, Excel, Photoshop

PROJECTS

Cost Savings Calculator

📅 05/2024 - 07/2024

Programmed a client-facing cost savings calculator for prospective clients interested in leveraging Mella products in their practice.

- Implemented code for veterinary and clinical setup scenarios, utilizing research paper to estimate how much time or money Mella products would save clients.

Automated Pet Food Scanner

📅 02/2023 - 05/2023

Built automatic product barcode scanner application for smart bowl hardware prototype.

- Developed a program that scraped and requested API information related to nutritional facts to guide pet nutritional goals.

Cross-Platform Feature Consistency Manager

📅 05/2023 - Present

Authoring and maintaining QA spreadsheets for application functionality across desktop and mobile platforms.

- Managing feature-testing documentation by mobile and desktop application release for developers, and authoring Jira tickets for buggy or unmet feature requirements.
