📍 New York, NY

EDUCATION

Electrical Engineering
[The Cooper Union](#)
📅 09/2018 - 05/2022 📍 New York, NY
• Track: Computer Engineering

PROJECTS

Cross-Platform Feature Consistency Management
📅 05/2023 - Present
Authoring and maintaining QA documentation for application functionality across desktop and mobile platforms.
• Feature-testing and debugging support for mobile and desktop application release, monitoring telemetry, and writing Jira tickets for buggy or unmet feature requirements.

Cost Savings Calculator
📅 05/2024 - 07/2024
Programmed a client-facing cost savings calculator for prospective clients interested in leveraging Mella products in practices.
• Implemented code for veterinary and clinical setup scenarios, utilizing research paper to estimate how much time or money Mella products would save clients.

Automated Pet Food Scanner
📅 02/2023 - 05/2023
Built automatic product barcode scanner application for smart bowl hardware prototype.
• Developed a program that scraped and requested API information related to nutritional facts to guide pet nutritional goals.

SUMMARY

Software engineering professional with 2+ years of proficiency in product development and quality assurance, experienced in full-stack development. Key achievements include developing a cross-platform pet nutrition automation application in React Native and managing feature set consistency across mobile and desktop implementations.

SKILLS

C++, CSS, HTML, Java, JavaScript, Python, Node.js, React.js/Native, Postgres, SQL

AWS, Azure Cloud, Figma, GitLab, Github, Jira, Microsoft Partner Center, Twilio

EXPERIENCE

Product Development Engineer
[Mella Pet Care](#) 📅 02/2023 - Present 📍 New York, NY
SaaS/IoT Pet Wellness Ecosystem
• Heading quality assurance for cross-platform UI and feature consistency.
• Built React-Native application, optimizing pet nutrition automation for users.
• Partnered with Practice Management Systems companies to integrate APIs.
• Review AWS EC2 instance and cost optimizer for resources and application capacity.
• Designed and developed client-facing cost savings calculator in JavaScript.
• Planned and led technical partnership discussions at VMX Veterinary Conference.

Web Content Manager
[Polish Pages](#) 📅 2016 - 2023 📍 New York, NY
Polish-American Business Directory
• Managed client website hosting and domains on IONOS, OVH, and Cloudflare.
• Ensured consistency of client data across print and online format.
• Published and stylized daily news articles by collaborating with multiple writers.
